

OUR EQUIPMENT

Our fleet is built for performance, durability, and efficiency. From high-volume pumps to durable layflat hoses, we have the equipment needed to handle even the toughest water transfer jobs.

- ▶ 12" & 16" LAYFLAT HOSE INVENTORY
- ▶ PIT LINING & SECONDARY CONTAINMENT
- ▶ ROUSTABOUT SERVICES & FOAM PERIMETERS
- ▶ HDPE/POLYPIPE RENTALS (1"-4" SDR 11)
- ▶ LARGE DIAMETER HDPE SALES & FABRICATION
- ▶ DIESEL OR ELECTRIC PUMP OPTIONS
- ▶ CUSTOM ROAD CROSSINGS (1'-3' BUILT-TO-SPEC DRIVE-OVERS)
- ▶ FULL PROJECT DESIGN & CONSULTING

LET'S GET TO WORK

WE DO WHAT WE SAY WE WILL DO.

WATER TRANSFER SYSTEMS

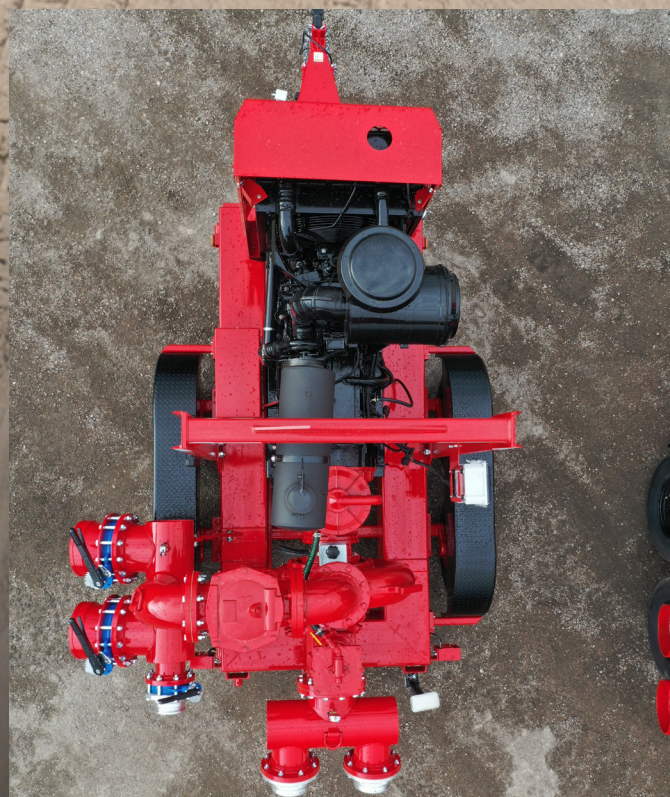

PRIMED TO PUMP

CUTTING-EDGE. COST-EFFECTIVE. TRUSTED.

At Thomas Oilfield Services, water transfer isn't just another service—it's a specialized operation backed by years of know-how and a relentless commitment to excellence.

We've invested in the latest equipment, top-tier talent, and field-tested processes to ensure your project runs smooth, fast, and on budget—with no compromises on safety or sustainability.

DEPENDABLE PERFORMANCE

PROPRIETARY AUTOMATION SYSTEMS

Smart tech for smarter water control.

EXPERIENCED CREWS

Experienced hands-on water transfer expertise.

3-TIER PUMP CONFIGURATION

Optimized water transfer built on pressure, volume, and distance.

HIGH-QUALITY LAYFLAT HOSES

Stainless steel heads, tight seals, zero headaches.

RAPID DEPLOYMENT

Trailer-mounted, direct drive hydraulic deployers—field-ready.

ENVIRONMENTAL ACCOUNTABILITY

Landowner-friendly, eco-conscious practices.

END-TO-END SOLUTIONS

From design to execution, with full operational support.

SUSTAINABILITY FOCUSED

Efficient, responsible, long-term water strategies.
